

## Radiology CRU Meeting

January 28, 2013

### Minutes

#### Attended:

D Barboriak, B Kurth, S Hall, G Curnow, J Lo, C Maxfield, K Roy Choudhury, B Driehuys, J Voyvodic, L Koweek, B Croft, W Freeland, D Frush, R Nelson, C Spritzer

#### I. Review of Submitted and Approved projects

##### a. Approved

- Hal Charles: A study comparing Measures of Ventilatory Heterogeneity (VH) in Asthma Patients , Pro00038169, no seed fund request, no issues
- Daniel Boll, Ben Paxton: Magnetic Resonance Imaging of the female pelvis Utilizing DOT engine imaging workflow. Pro00040589, no seed fund request, no issues
- Christine Marx (VA-BIAC): Neuroactive Steroids and TBI in OEF/OIF Veterans , Pro00041761, no seed fund request, no issues
- Danielle Marin: Effectiveness of Synthesized Monochromatic Imaging Generated with a Fast Kilovoltage Switching Dual Energy CT Scanner for Improving Patient-to-Patient Uniformity of Aortic Enhancement during Abdominal CT Angiography, Pro00041952, no seed fund request, no issues
- Mustafa Bashir: Ferumoxytol in Renal Artery Evaluation, Pro00043608, no seed fund request, no issues
- Charles Kim: Retrospective review of the SPACE noncontrast MRA sequence of the central veins of the chest. Pro00043417, no seed fund request, no issues

*No issues with committee members*

##### b. Submitted

- Discussion of Pabon-Ramos project requests Pro#00040627

*This will get expedited approval once she has responded to all the issues.*

#### II. Seed fund issues:

##### a. CRC's for retrospective studies

*Investigators may ask for a minimum amount of work required to submit to eIRB, renewals and closures as a service rather than needing to fund them for that effort.*

##### b. CRC's for all IRB submissions

*Tabled*

III. CRU Directors Meeting Update  
a. RDSP

*Good compliance with RetroRDSP from Radiology faculty; Dan Barboriak will mention this in the next faculty meeting for anyone who has missed the deadline of January 31.*

b. Human Subjects Research training from DOCR

*The policy and specific instructions were sent to everyone several times since January 7. It was clarified that this CITI training is still required.*

c. Poorly accruing studies

*Discussed*

d. Statistical support

*Discussed*

e. Triage

*Discussed*

IV. New Directions  
a. Website / wiki  
Checklists

*In progress*
