

Minutes
CRU September 30, 2013 meeting

I. Introduction

- Activity Summary – 200 open protocols approved by the IRB (42 full IRB committee review)
- Patient safety update – none reported
- Approval of 8/26/2013 minutes

No discussion, minutes approved

II. Review of Approved projects (no seed fund requests or issues)

- M Bashir, Pro00048804, Ferumoxylol Review, retrospective
- P Kranz, Pro00048712, Rebound Intracranial Hypertension following Epidural Patching for Intracranial Hypotension, retrospective
- M Bashir, Pro00048607, Respiratory Motion Artifact With Gadoxetate—Repeat Motion Rate , retrospective
- NK Chen, Pro00048555, Imaging Intrinsic Connectivity Networks to Investigate the Neural Mechanisms of Comorbidity in Parkinson's disease (PD) through MRI, NIH funded

No discussion, approved by Dan Barboriak

III. Prospective Studies for Discussion and Vote

- J Larson / Frush, Pro00046665, An Image Quality Concurrence Study of a SSXI Mobile Fluoroscopy System and the OEC 9900 Elite Mobile Fluoroscopy System (discussion only) MOU and residuals

Approved

- J Provenzale, Pro00039982, Comparison of Power Injection versus Hand Injection of Administering Contrast Media in MR Perfusion Imaging

Questions about Pro00039982 were whether or not there is already literature covering this comparison, will injections for each group be the same (e.g. needle bore, injection site). Dan will email Dr. Provenzale and make comments in eIRB for the study team before approving the protocol.

IV. Seed fund projects for Discussion and Vote

- P Suhocki, Pro00048143, What is the prevalence of hyperammonemia in non-cirrhotic residents of assisted living centers with cognitive decline?, prospective
See new budget (reduced from original request to \$10,000)

This is approved on the condition that if fewer than 10 people in the study population do not have hyperammonemia with cognitive decline and no known cause if they do, part two of the study will not go forward. Dan will email Dr. Suhocki.

V. **Seed funds general discussion**

- Change maximum amount?

The committee briefly discussed putting together a proposal with an increase of at least 15%.

- Discussion of seed fund request for extension and progress report forms

Forms have been created and approved.

VI. **Compliance issues**

Billing of research studies

Performance of protocols – violations, deviations, notes to file

Tabled

VII. **Centralized database for IRB protocols in Radiology**

On going

VIII. **Quick updates**

- Statistical support-case controlled studies
- Identification of physician leadership for CT
- EPIC MaestroCare for Clinical Research
- Feasibility check list for Radiology studies prior to CRU approval
- New financial policies regarding residuals

Tabled

IX. **New Business**
